

# 2010 SPN Project of The Year

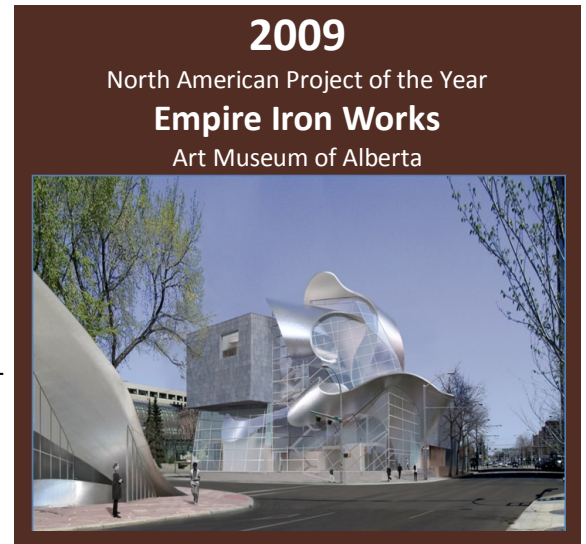

## Project of the Year Details and Criteria

As we fast approach the date of this year's SPN AGM, we want to take the opportunity to invite all members to submit their entry for the 2010 "Project of the Year".

This year, we're once again going to be highlighting the top 2 semi-finalists from members' submissions for each of the United States and Canadian members. The two finalists entries will be invited to the stage at the Gala Dinner to present the details of their project to the conference.

This year we've asked a few (3) "friends" of the Network to assist us by participating as an impartial "jury" for the competition. These folks come from some of the largest engineering and construction companies in North America. We'll supply them with the information and criteria (detailed below) that they will need to award the 2010 SPN North American "Project of the Year".

You'll still send all of your submission materials to our office and we'll be responsible for arranging the jury meetings.

\*\*\*As a special bonus, the winner of this year's award will be featured in an ad in Modern Steel Construction\*\*\*

Please note: All entries must be submitted by **Feb. 15, 2011.**

Good luck everyone!

## Project of the Year Submission Guidelines:

The Project of the Year Award of Steel Plus Network is an annual recognition to the teams in the United States and Canada, who created steel structures of outstanding complexity and dimension in 2010.

If you have a project that deserves recognition, we encourage you to submit your proposal no later than February 15th, 2011.

### General Guidelines:

1. Complete the Application Form
2. Write a letter describing the project's particularities, challenges, and achievements, and stating why the project deserves the award.
3. Send high-quality project photos in which juries can see key aspects of the construction site.

### Selection Criteria:

- Tonnage (5 points)
- Square feet (5 points)
- Use of SPN technologies (5 points)
- Quality of the photo (10 points)
- Networking (5 points)
- Complexity (5 points)
- Use of SPN Suppliers (15 points)

Project Name/ Nom du projet :		
City / Ville :		
Sub Category / Sous-catégorie :		
Bridge/Pont Industrial/Industrielle	Highway/Autoroute Commercial/Commerciale	Institutional/Institutionnelle

Be part of the showcase of submissions for Canada and U.S. at our award celebration to be held during the Gala Dinner in Yountville, CA.

Good luck to everyone!
